

Cisco BroadCloud Carrier and Federal

UC-One Carrier Desktop and UC-One Carrier Connect

Cisco BroadCloud Release date - Friday April 17 2020 (contingent on App Stores)

The UC-One Carrier Desktop 22.9.8 for Windows, Mac, Windows S4B and the UC-One Carrier Connect 3.9.8 for iOS and Android have been certified for use on the Cisco BroadCloud for Carrier platform including Federal. The branded clients will be ready for production release to all markets including Federal on Friday April 17 2020.

Cisco BroadCloud Platform Specific Information

Similar to the previously deployed commercial market versions, each of the UC-One Carrier Desktop and Connect clients support all Cisco BroadCloud market regions including from a single client using the region pulldown menu from the login screen.

UC-One Upgrade Summary:

Client Name	Cisco BroadCloud Platform	Current Version	New Version
UC-One Carrier Desktop (Win/Mac/S4B)	Carrier (Comercial & FED)	22.7.13	22.9.8
UC-One Carrier Connect (iOS / Android)	Carrier (Comercial & FED)	3.8.8	3.9.8

Cisco BroadCloud End-User Downloads:

Non-Branding Carriers

At time of release, the MyPhone Desktop and Connect client download links will be updated to the new versions of the clients.

Cisco BroadCloud Branding Carriers

The release of Cisco BroadCloud reference clients does not affect any Carriers that brand their own clients. Carriers wanting to deploy their own branded versions of the Desktop or Connect clients should follow their normal branding and deployment process, and then schedule a date to upgrade their customer base.
